Summary of Handling Results:

From January 1 to December 31, 2024, the Fund received a total of 2 cases related to suggestions, complaints, and objections. These included one complaint case under the category of "Service Processes" and one objection case under "Regulatory Functions." Both cases were handled and archived on schedule.

The single "Service Processes" complaint case was processed according to established procedures, with a working meeting held and corrective actions taken. The "Regulatory Functions" objection case was followed up and analyzed by the relevant functional units, with a response provided to the case initiator within the 45-day deadline.

As always, the Fund remains committed to transparency, actively seeking feedback from service users, continuously reviewing work effectiveness, and striving to improve departmental operations and service levels.
